Portfolio:

I have a portfolio on my website which includes work I have done on various subjects such as Web Development and Software Development. The subjects are separated to make it easier for you to look at work relevant to the skills you are looking for.

Feel free to browse through and see the experience I have gained over the years:

Personal Statement:

My names Dean Williams, and I have had a very strong interest in computers since a young age. I very quickly got a deep understanding of how computers worked, starting with the basic operations of computers and how they communicated between each other, I then quickly moved into programming and the internet. My main interest is Web Development, as I love coding in PHP / HTML / CSS / JavaScript and etc. I do however also enjoy desktop programming, networking and dabble in game programming.

Employment History:

L.P. Mason:

Date: 16/11/05 – (2 weeks work experience)

I worked at L.P Mason for 2 weeks for work experience, I completed many tasks which include filing, cleaning and I also designed them a new company logo.

Wm Morrisons PLC:

Date: 06/12/06 – 12/07/09

I worked as a cashier for Wm Morrisons, my main duty's included being on checkouts, serving customers from day to day, as well as handling cash and cleaning up at the end of a night. I occasionally worked in administration or covered supervisory positions.

Black Country Metal Works:

Date: November 2009 – September 2010

I worked for Black Country Metal Works as an IT Advisor, Web Developer and E-Commerce Specialist, I looked after the product ranges on their main sites (listed below) as well as modifying and extending there websites code-base's.

<http://blackcountrymetalworks.co.uk>
<http://www.housenumbersigns.co.uk/>

<http://budgethardware.co.uk>

I have also created several dynamic PHP / MySQL websites for them:

<http://mylampposts.co.uk>

<http://inlovingmemory.co.uk>

I also worked to expand the company's exposure by SEO Optimizing all their products using alternative product names, in-depth product descriptions and altering the HTML code-base for better META tags and site navigation, I also set up stores on websites such as Amazon.

See portfolio.

Quantum Web Solutions:

Date: 30/08/2010 – 16/05/2011

I worked for Quantum Web Solutions as a Web Developer, I have successfully developed a directory listing system built on top of the Quantum Web Cart system, I have also done feature upgrades and bug fixes on hundreds of client websites.

See portfolio.
